CS230 Exam #3 Cover Page

Please make this the first page of your hard copy submission.

Name: _____   User Name:_____

Lecture Section (circle one):   01   02   03

By signing my name in the blank space below, I state that I abided by the [course policies](#) while working on this assignment:

Signature: _____

Please estimate the time you spent on this exam: _____

<u>What to submit</u> (check boxes below)

Soft copy

We will compile and run your submitted code, so **follow these directions carefully**.

- ❏ Save a backup copy of the entire folder containing your exam work. Save the copy outside the folder containing the main version of your work.
- ❏ Make sure all the following files are within your **cs230-exam3-<yourUserName>** folder:
    - ❏ Cover page (this page)
    - ❏ Your completed AdjMatGraphPlus.java (replace the starter version)
    - ❏ Your completed Exam3Testing.java (replace the starter version)
    - ❏ A file testing.txt containing the output of your Exam3Testing driver
    - ❏ Any .tgf files you created for testing purposes
    - ❏ Including other files is OK, *but we will ignore them*.
- ❏ Make sure that everything here compiles and runs **on the lab computers**.
- ❏ Create a zip file from your cs230-exam3-<yourUserName> folder.
- ❏ Upload cs230-exam3-<yourUserName>.zip to your own **CS230-assignments/exam3** directory.

Hard copy

Submit a hard copy of the first **four** files listed above (cover page two .java and one .txt), **stapled** together in one package. (Try to print two-sided to economize on paper.) Do not include hard copies of your .tgf files in your hard copy submission.
